

Ministry Bible Quest

Lesson Objective

I can use Bible verses to learn how to share Jesus and how I can serve him.

Preparation

Print one copy of Question Cards, cut them apart, and tape them around the room. Make enough copies of the blank answer sheet for each student.

Directions

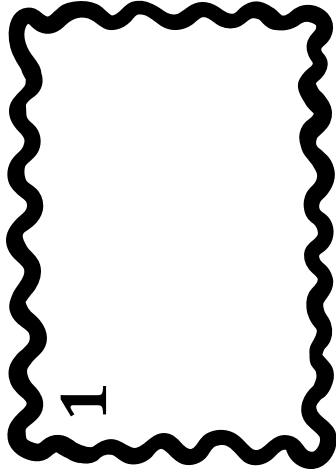

Students will work individually or with a partner to answer the questions and record their answers on the answer sheet. They will walk around the room to "investigate" each question by looking up the answers in their Bible. Students do not need to complete questions in order (just make sure the number on the card matches the number on the answer sheet). Set a timer and see how many questions each student can complete before time runs out. When time is up, have the class come together as a group to review the answers and discuss what they learned.

Alternate Idea

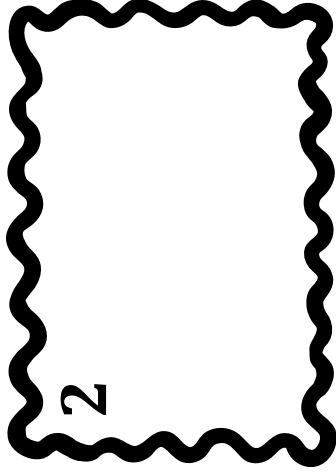

Working as a table, each table starts with 1–2 cards. Set timer for five minutes. See if the table can find the answer before it is time to pass the cards to the next group, and the timer starts again.
