

Service Roles for Youth

Select a service role from the following list:

Sunday School Ministry

We can use plenty of help with our younger classes. We have typically asked younger people to serve as teachers during the summer months.

Choir

Our adult choir is a real blessing to our church and serves us in worship several times a year. Practice typically takes place regularly throughout the year.

Greeting

Having friendly faces at the door for our worship services is an important part of our church's outreach efforts. Anyone choosing this role would be agreeing to simply welcome visitors at our worship and offer to help them find whatever they are seeking.

Ushering

Assisting as an usher takes place primarily on Sunday mornings and involves tasks like distributing service folders, helping people find seats, and leading people up to Communion.

Outreach Events

Our church puts on several large-scale outreach events each year. We need volunteer help from planning to setup, to carrying out the events, and cleaning up.

Altar Guild/Paraments

We have a team of people who prepare the elements for Communion ahead of time, restock them between services, and clean up afterward. In addition, the paraments (colored fabric in front of church) need to be changed several times during the church year.

Social Media & Website

Our church operates a Facebook page, Instagram page, and occasionally a YouTube page, along with our church website. Any assistance taking photos, editing videos, coming up with creative content ideas, or helping keep our website up to date would be appreciated.

Tech/AV Team

Our worship services rely on sound, video, and streaming equipment to run smoothly. There are opportunities to help run sound, operate cameras, or manage slides during our services.

Youth Group Leader

Helping guide and mentor younger students in our youth group is a great way to pass along the faith. This could involve helping plan activities, leading discussions, or simply being a positive presence for younger members.

Facility

We have opportunities to care for the building God has given us, both the inside and outside of our church.

Long Term Planning

As a church, we want to consistently look toward the future with an eye toward the opportunities God might give us to serve our mission field and congregation in new and diverse ways. Being part of our long-term planning team would help us have the perspective and feedback of a young person.
